- Drain pipe connection: 200 mm
- Water connection: R15 (on grid end)
- Batteries: 8 pcs AA

Available Accessories

- 200 mm drain pipe
- Eco Brush & Bucket

CL910

Installation

1.

Measure 300mm from the wall to the centre of the drain pipe.

2.

Ensure that the drain pipe is fixed with 170mm sticking out from the floor.

3.

Place the toilet bowl over the pipe and seal it with silicone.

4.

Use the supplied foam strip to create a seal between the toilet bowl and the drain pipe.

5.

Connect the water supply hose to a tap.
